### What's New In?

Flash Templates are an innovative way to change the look and feel of your website. Instead of purchasing a Dreamweaver template, many Flash templates are perfectly suited for standard website builders, including Go4Flex and iWeb, as well as the iPhone® App. Custom flash website templates are extremely easy to use and can be created using a standard text editor. The template includes included Html, css, jpg, swf and xml templates, but you also have the option of creating your own new templates or modifying an existing template. In the future, we will be releasing many templates built with other programming languages. EasyTemplates provides Easy templates, and therefore there are no coding necessary. You just need to replace the text and colors with your own. You don't need to know HTML, but you do need to be familiar with the site builder you are using. EasyTemplates is completely compatible with most of the major site builders. Limitations: ☒ The registration version of the Easy Templates Flash website templates allow access to create unlimited flash website templates and modify templates.
