⇔ Create Labels for your CD Collection AudioLabel is a tool designed to help you create labels for your CDs by selecting from the many available templates while at the same time letting you upload your own photos and image files. ⇔ Easily change the size and theme The application offers many ways to manage the size and theme of your labels, and by moving a slider up and

---

down you can easily size your label to fit the CD. By simply selecting a theme from the gallery, you can have the label ready in no time. ⇔ Upload your own photos and image files If you know that the CD has a certain artwork, you can upload the image that you want to use as the background to your image editor and convert it into JPG, BMP, GIF, TIF, PNG, ICO, or EMF. You can then import this image back into

---

your application, which makes it possible for you to include your own artwork.

⇔ Customize the labels

Select the themes that best suit your needs, add text to the labels, and adjust the overall appearance to fit your liking. You are also allowed to add audio clips to the labels, and add your own information to the labels at will. ⇔ Comes

with three themes ✓

Standard This theme is the default, and comes with a

---

textured background. ✓  
Classic This theme comes  
with a brushed metal  
background. ✓ New This  
theme is fun with a retro  
look. ⇔ Automatic For  
users who have their albums  
available online. ⇔ Manual  
If you do not have the  
automatic feature for  
importing your CD's  
information, this is where  
you can manually change  
the artist, title, and number  
of tracks. AudioLabel also  
saves your edited labels as a

---

PDF file, so you can easily print or export them to a number of file formats. ⇔

AudioLabel Review: Video game addiction is a very

---

serious problem that is increasingly widespread. According to statistics, by the year 2010, up to 50 percent of American children aged 11-16 have been confronted with extreme visual games like first-person shooting, driving, and role-playing games. The toxicity of these games can be extremely harmful and affect the vital functions in your body. These can also cause mood, personality and even

---

memory disorders in children. Video game addiction is similar to a drug addiction. If it is not treated in time, it can lead to psychosis, paranoia, depression, anxiety, aggression, emotional instability, etc. It can also cause physical damage to the brain, such as visual problems and loss of memory. There are many signs that give you the first clue of gaming addiction. It can be quite difficult to

---

recognize these signs, because usually, no one has experienced gaming addiction. Here are some symptoms of gaming addiction: The Signs of Gaming Addiction

Cognitive Deficits: Gamers tend to have lesser cognitive skills compared to the non-gamers. A gamer who has constant exposure to the gaming environment for a long time will be affected by the same. For example, they may be able to count

---

only odd numbers while playing console games. This problem is also evident in the work place. High-stress jobs or jobs that involve a lot of cognitive pressure may cause the same.

**Lethargy:** When a person suffers from gaming addiction, his or her energy levels are lowered. In a hyper-addicted person, the energy levels can even drop drastically. This leads to the person being disinterested in work and other daily

---

activities. In short, the person does not exert enough effort or get as much productivity from his or her work. A person, who cannot enjoy his or her hobbies after a long time, is also considered to be suffering from gaming addiction.

**Emotional Distress:** Some games have no cut-off point, and they force you to play without stopping. If you do not have the knowledge to stop playing a game once it

---

starts, you may find yourself addicted to
