Flesh is a game about surviving in the sewers, so far away from the world of the surface. The city of flesh is a city of Shadowrun inspired, where mechanics like computers and guns are outlawed and magic is used instead, You will fight flying creatures and huge monsters, trough levels that are randomly generated every run. In order to survive you will have to make a full customisation of your armor, weapons and magic, which you will unlock as you continue surviving. The game is still in development and will be constantly updated, so feel free to ask/comment if you have any question or feedback regarding the game. Hate the way it looks?
