Set in a world where humans and Revenants dwell, players take on the role of Albert, a Revenant who sets off on a journey to seek vengeance and bring the vampire who created him to justice. The game features a heartwarming story and beautifully rendered graphics, allowing players to enjoy their journey without the worry of checking the clock at every second. DETAILS Category: Role-playing video game Publisher: KEMCO Developer: KEMCO Genre: RPG Platform: Windows Phone Release date: 08/30/2012 Original Price: \$14.99 Rating: 6/5 Ratings (147 votes) - Is it Good (48.63%, 100 votes) - Is it Bad (51.37%, 101 votes) What's New in this Version: • Added player's evolution table for weapons • Minor adjustments Cool. Is this the only Windows Phone version that supports the Xbox 360 Controller? I'm getting my Xbox 360 Controller for my Lumia 900, and I'd like to know if I can take advantage of the controller's buttons and stuff. Just wondering how well the game does on the Lumia 830, and if it supports more than just the standard 7" view. I just bought this game and I haven't installed it yet. Still looking at all the naked female characters and pictures in the store pages. I'm getting tired of not being able to take my Xbox 360 controller to a wp8 game. These are awesome but I'm a huge Dark Souls fan and I would love to play this game on my Xbox 360. I would also love to see one's in it who resemble the Dark Souls characters, for example, I want to see crazy lightning bolts coming out of their eyes. You are supported, there are 8 games that have that feature, And yep, Xbox 360 controllers work on WP8, but if you want a real (or artificial) 360 pad, there are options. If you're a Dark Souls fan, you should check out Gish: It's the best of the bunch I've played, I have a few issues with it, but the game itself is awesome.

## **What's new in Shard:**

**(1975) In Black Mountain Park in Georgia there was a wing of the government department. The area was known for its scenery, and for its attempt to capture the spirit of the Wild West. It was a period during which this was attempted to make a new beginning in the history of the world's races. The government department was in charge of the keeping an eye on the Native Americans, who now have to be careful not to spread all across the territory. Its men also provide infrastructure for the city. Formerly the area was nobody's business - uncharted lands. But here a government department has its own work. The government department's wing had a long fence protecting it from the male Mesteneszo. The area was pointed out to the best natural places to hunt, and shooting rights were freely issued on this basis. The hunters did not have much time to prepare, so the game animals moved away to the forest. There they roamed unconcerned, not knowing what awaited them. They did not know that the man-eating Mesteneszo was after them. He came that night, because he knew that the hunters had gathered in the area of the government department and would stay there till morning. He had been lying in wait for the hunters, just like Coyote, who waited for the rabbit when it set out for a wander. As soon as the hunters had assembled, a few that had been chosen by the higher level, the Mesteneszo attacked them. They were not lucky. One had been killed at the first blow, and there were no witnesses in the area. After the Mesteneszo had taken their weapons, they ran away back to the forest. Up to now it had all gone well, the hunters were safe. And then the Mesteneszo came to the homestead of Borego, who lived nearby. He didn't like people who were armed. Waldemar is open-minded, he doesn't believe in the Mesteneszo, and neither do I. But Borego felt better when the Mesteneszo came to him. The Mesteneszo knew him, and he liked them. People, who are curious, go to talk to Mesteneszo in their homes. They asked him about their past history. Borego was the storyteller. He told them great stories, and they were interested.**
