This video was made to show some additional features of NetworkMiner Professional such as Pcap-over-IP running in the OS. X to Mono, export results to CSV/...etc. However, they were all removed by mistake and the contents of the NetworkMiner Professional configuration file were removed. I was forced to completely rebuild it from scratch. I'm sure it's not a bug, but more of an oversight, but it's already fixed anyway. Please take a look at the new version. Thanks I had this issue with NetworkMiner Professional (which works great) after upgrading to version 9.9. I deleted everything in the configuration files folder and reinstalled it completely.
